

00:16:32 Hans ibelings
00:00:40 Utopians are close go totalitarian
00:00:50 New ages, new orders
00:00:59 The habit of numbering
00:01:11 French revolution
00:01:23 New calendar napoleon abolished
00:01:46 Fascist era, mussolini
00:01:52 Visionary plans
00:01:56 Utopian plans future as it should be
00:02:17 Distinction revolutionary transformation and extrapolation
00:02:30 Possible and preferred future
00:02:36 Descriptive and prescriptive ideology
00:02:48 Most plans are more visions extrapolations of today more than utopias
00:03:16 Utopias tend to be large
00:03:20 Small scale interventions big impact
00:03:37 Not the same level of forcing imposing life style
00:03:48 New harmony built in a smaller scale in the US
00:04:03 Extreme utopia and future visions
00:04:37 From progress to change
00:04:44 Visions can be individuals and utopias are collective and they need a ideology,
00:04:56 much more left wing than right wing
00:05:04 Political left are more concerned about collectives
00:05:18 Every extrapolation can lead to failure
00:05:29 Utopias are bound to fail. Best utopias are never realized
00:06:01 Utopias can maintain their promises but you cannot sense their experiences
00:06:13 when they are realized
00:06:29 Paul island in dubai. Privatopias under gate communities
00:06:46 Images are the same but the social impact is different
00:07:04 Exclusive versus inclusive
00:07:09 Utopia is an island, real madrid resort in the. Middle east
00:07:28 Atlantis project
00:07:34 Island in the desert
00:07:44 Utopian projects tend to be authoritarian
00:08:04 Nasa exploration unit
00:08:25 Idyllic aspect - nature always present in these islands
00:09:04 Visions that rely on technology
00:09:13 New babylon vision from Constant - a combination of society and technology
00:09:28 vision
00:09:32 Buckminster fuller proposed domes to cover parts of manhattan
00:10:01 Dystopia is pretty much explored by science fiction

0• 10:11 Architecture of dystopia is quite close of utopias
0• 10:21 A society under control of the state
0• 10:34 Difference between utopia and dystopia are often only the colors
0• 11:09 Images are reused without the content
0• 11:58 Operative criticism
0• 12:32 Superstudio interpretations
0• 13:02 Paulo soleri was the messia of their projects
0• 13:18 Nobody was allowed to drink wine apart from the creator of that paradise
0• 13:53 Building inspired by furrier was like a prision
0• 14:16 Appreciaten the ambition for change
0• 14:32 Realism absence of dreams review a shortcoming

0• 15:48 Edwin gardner
0• 17:21 Monnik platform interface of technology, consciosusness and culture
1• 00:17 Technology extend possibilities
1• 00:49 Feedback loop between these coins
1• 02:06 Our relation to the future is intertwined with the present
1• 02:27 Ourbthinking about the future is modern
1• 02:34 We are horryfied about totalitarian state
1• 02:51 Skeptical
1• 02:53 But still modernity
1• 03:11 Blade runner instead of star trek
1• 03:37 Fom the 1980 they change movies completely
1• 03:52 Future started to look a lot with our present
1• 04:06 We crossed two lines: inside/outside
1• 04:30 Inside
1• 04:32 There was a time when future was another place
1• 05:24 Indiana jones
1• 05:33 Outer limit
1• 05:35 When the world saw itself
1• 05:45 Madman episode
1• 05:55 World tiny and unprotected surrounded by darkness
1• 06:12 Limits of growth, overpopulation
1• 06:30 Projection for disasters
1• 06:56 Mcluhan
1• 07:17 Technology changes us
1• 07:46 1910 influencing machine fore schizophrenia patients
1• 08:16 Person identity is undressed
1• 09:04 Cyberspace is a kind of mental inside the machine
1• 09:38 Kids playing arcade games

1• 10:20 What is inside? Soul mind or what?
1• 13:19 Our individual dreams depend on collective growth, development
1• 13:45 Stagnation paradigm
1• 14:48 Stillness a dynamic innovative culture that is not based in growth
1• 15:26 Homo faber replaced by homo ludens
1• 16:10 Developed countries want to be the homo ludens
1• 16:32 Industry left town in the knowledge society
1• 17:54 Division of labour needs to be rethought
1• 18:07 Creative class at the top
1• 18:15 Bottom the pyramid the low educated
1• 19:24 Nobody dream of being a nighttime cleaner of office buildings
1• 19:43 More jobs predicted for machines than for people
1• 19:52 Technology takes more jobs than creates
1• 20:22 Visions are currently created only by the top of the pyramid, not by people who
1• 20:37 can really make things
1• 23:40 Self organize organism that regulate itself without an ideology
1• 24:58 Subconscious ideology we live in a system with rules and values
1• 25:21 Unplug and think about it

3• 15:58 3d printing
3• 17:02 Faber is coming back
3• 18:12 Printing houses

3• 36:09 Village makers
3• 36:22 Do we need a masterplan
3• 36:29 Software as gathering our tools
3• 36:48 3d rhino grasshoppers
3• 37:31 User settings inside the parametric possibilities
3• 38:32 View cone, sun cone for the house
3• 39:46 What is a perfect village
3• 40:45 Simulate if according to regulations you can build
3• 42:29 Vision are pragmatic
3• 43:28 Why having density?
3• 44:12 Live together in an evolutionary process?
3• 45:01 Is that anything collective in this?
3• 46:58 Critical naivity open minded
3• 47:10 Perfect society?
3• 48:04 Utopias 2.0 individual or collective?
3• 48:23 Individual age
3• 50:08 Living together by focusing in yourself

3· 53:00 **Crisis**

3· 53:09 Lack of real projects we focuses in conceptual and in the future come back and
3· 53:28 do the mediocre buildings

3· 55:57 **Regulations layer**

3· 56:21 **How to make beautiful things?**

3· 59:26 **Making models can be more architecture than making buildings**
